Hygiene and infection prevention

Sampling:

Forensic toxicology, including fitness to drive diagnostics

Hospital hygiene and infection prevention

Abbreviations used: see last page

Annex to the accreditation certificate D-PL-13256-01-00

For the test areas marked with *, the laboratory is permitted to freely select standard test methods or equivalent methods without obtaining prior notification and consent from Deutsche Akkreditierungsstelle GmbH (DAkKS GmbH). For the test areas marked with **, the laboratory is permitted to modify and develop new test methods without obtaining prior notification and consent from Deutsche Akkreditierungsstelle GmbH.

The test methods listed are given by way of an example. The laboratory has an up-to-date list of all test methods within the flexible scope of accreditation.

The management system requirements of DIN EN ISO 15189 are written in the language relevant to the operations of medical laboratories. Laboratories that conform to the requirements of this standard operate generally in accordance with the principles of DIN EN ISO 9001.

The certificate together with the annex reflects the status as indicated by the date of issue. The current status of any given scope of accreditation can be found in the directory of accredited bodies maintained by Deutsche Akkreditierungsstelle GmbH (DAkKS) at <https://www.dakks.de/en/accredited-bodies-search.html>
