The testing laboratory maintains a current list of all testing methods within the flexible scope of accreditation.

1 Burning behaviour

DIN 75200 1980-09	Determination of burning behaviour of interior materials in motor vehicles
----------------------	--

The management system requirements of DIN EN ISO/IEC 17025 are written in the language relevant to the operations of testing laboratories. Laboratories that conform to the requirements of this standard, operate generally in accordance with the principles of DIN EN ISO 9001.

The certificate together with the annex reflects the status as indicated by the date of issue.
