

Deutsche Akkreditierungsstelle

Annex to the Partial Accreditation Certificate D-PL-17712-01-02 according to DIN EN ISO/IEC 17025:2018

Valid from: 12.05.2023

Date of issue: 12.05.2023

This annex is a part of the accreditation certificate D-PL-17712-01-00.

Holder of partial accreditation certificate:

PIA Prüfinstitut für Abwassertechnik GmbH
Hergenrather Weg 30, 52074 Aachen

The testing laboratory meets the requirements of DIN EN ISO/IEC 17025:2018 to carry out the conformity assessment activities listed in this annex. The testing laboratory meets additional legal and normative requirements, if applicable, including those in relevant sectoral schemes, provided that these are explicitly confirmed below.

The management system requirements of DIN EN ISO/IEC 17025 are written in the language relevant to the operations of testing laboratories and confirm generally with the principles of DIN EN ISO 9001.

This certificate annex is only valid together with the written accreditation certificate and reflects the status as indicated by the date of issue. The current status of any given scope of accreditation can be found in the directory of accredited bodies maintained by Deutsche Akkreditierungsstelle GmbH at <https://www.dakks.de>.

Annex to the Partial Accreditation Certificate D-PL-17712-01-02

1 Testing of construction products (system 3 for assessment and verification of constancy of performance) under Regulation (EU) No 305/2011 laying down harmonised conditions for the marketing of construction products (Construction Products Regulation)

Decision of the Commission	System ¹⁾	Technical specification
<p>1997/464/EC Waste water engineering products outside buildings</p>	<p>3</p>	<p>EN 12050-1:2001 Wastewater lifting plants for buildings and sites – Principles of construction and testing – Part 1: Lifting plants for wastewater containing faecal matter</p>
		<p>EN 12050-2:2000 Wastewater lifting plants for buildings and sites – Principles of construction and testing – Part 2: Lifting plants for faecal-free wastewater</p>
		<p>EN 12050-3:2000 Wastewater lifting plants for buildings and sites – Principles of construction and testing – Part 3: Lifting plants for wastewater containing faecal matter for limited application</p>
		<p>EN 12050-4:2000 Wastewater lifting plants for buildings and sites – Principles of construction and testing – Part 4: Non-return valves for faecal-free wastewater and wastewater containing faecal matter</p>
		<p>EN 12566-1:2000+A1:2003 Small wastewater treatment plants for up to 50 PT – Part 1: Prefabricated septic tanks</p>
		<p>EN 12566-3:2005+A2:2013 Small wastewater treatment systems for up to 50 PT – Part 3: Packaged and/or site assembled domestic wastewater treatment plants</p>
		<p>EN 12566-4:2007 Small wastewater treatment systems for up to 50 PT – Part 4: Septic tanks assembled in situ from prefabricated kits</p>
		<p>EN 12566-6:2013 Small wastewater treatment systems for up to 50 PT – Part 6: Prefabricated treatment units for septic tank effluent</p>
		<p>EN 12566-7:2013 Small wastewater treatment systems for up to 50 PT – Part 7: Prefabricated tertiary treatment units</p>

¹⁾ System for assessment and verification of constancy of performance

Annex to the Partial Accreditation Certificate D-PL-17712-01-02

The requirements for a testing laboratory in accordance with Article 43 of the Construction Products Regulation are met. Test methods that are required for determination of the product type and cannot be performed by the certificate holder are set out in the list of subcontractors.

The testing laboratory is permitted to apply various revisions of the harmonised technical specifications without the prior approval of Deutsche Akkreditierungsstelle GmbH.

2 Testing of the fire behaviour of construction products for which no indication of a relevant harmonised technical specification is required (item 3, Annex V (EU) No. 305/2011)

EN ISO 11925-2 Reaction to fire tests – Ignitability of products subjected to direct impingement of flame – Part 2: Single-flame source test

In conjunction with:

*EN 13501-1
2019*

Fire classification of construction products and building elements – Part 1: Classification using data from reaction to fire tests

The requirements for a testing laboratory in accordance with Article 43 of the Construction Products Regulation are met.
