

Deutsche Akkreditierungsstelle

Annex to the Partial Accreditation Certificate D-ZE-14169-01-03 according to DIN EN ISO/IEC 17065:2013

Valid from: 01.11.2022

Date of issue: 10.02.2023

This annex is a part of the accreditation certificate D-ZE-14169-01-00.

Holder of partial accreditation certificate:

**TÜV Rheinland LGA Products GmbH
Tillystraße 2, 90431 Nürnberg**

with its certification body

**TÜV Rheinland LGA Products GmbH
Zentralbereich Zertifizierung
Am Grauen Stein 29, 51105 Köln**

The certification body meets the minimal requirements of DIN EN ISO/IEC 17065:2013 and, if applicable, additional legal and normative requirements, including those in relevant sectoral schemes, in order to carry out the conformity assessment activities listed below.

The management system requirements of DIN EN ISO/IEC 17065 are written in the language relevant to the operations of certification bodies and confirm generally with the principles of DIN EN ISO 9001.

Certification of products, processes and services in the area of:

Machinery and safety components

This certificate annex is only valid together with the written accreditation certificate and reflects the status as indicated by the date of issue. The current status of any given scope of accreditation can be found in the directory of accredited bodies maintained by Deutsche Akkreditierungsstelle GmbH at <https://www.dakks.de>.

Annex to the Partial Accreditation Certificate D-ZE-14169-01-03

I. Machinery

Directive 2006/42/EC (Machinery Directive)

Conformity assessments in accordance with

- Annex IX (EC type-examination)

For the following products/categories of machinery:

- Circular saws (single- or multi-blade) for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics, including sawing machinery
- Hand-fed surface planing machinery for woodworking
- Thicknessers for one-side dressing having a built-in mechanical feed device, with manual loading and/or unloading for woodworking
- Band-saws with manual loading and/or unloading for working with wood and material with similar physical characteristics or for working with meat and material with similar physical characteristics, including sawing machinery
- Combined machinery of the types referred to in points 1 to 4 and in point 7 for working with wood and material with similar physical characteristics
- Hand-fed tenoning machinery with several tool holders for woodworking
- Hand-fed vertical spindle moulding machinery for working with wood and material with similar physical characteristics
- Portable chainsaws for woodworking
- Presses, including press-brakes, for the cold working of metals, with manual loading and/or unloading, whose movable working parts may have a travel exceeding 6 mm and a speed exceeding 30 mm/s
- Injection or compression plastics-moulding machinery with manual loading or unloading
- Injection or compression rubber-moulding machinery with manual loading or unloading
- Vehicle servicing lifts

The certification body fulfils the requirements set out in Section 13 of the German Product Safety Act, the 9th Ordinance on Product Safety (9. ProdSV) and Directive 2006/42/EC, in particular Annex XI.

Valid from: 01.11.2022

Date of issue: 10.02.2023

II. Products for the award of the GS mark pursuant to Section 20 of the German Product Safety Act (ProdSG)

For the following products:

- Hand-operated and partially hand-operated industrial trucks (without passenger transport) and shopping trolleys
- Tools, non-energetic (including cleaning equipment), including hand tools, tools for working on live parts, garden tools, workshop vises, sawhorses
- Machines used in the chemical industry
- Special machines for working and processing rubber
- Special machines for working and processing plastic
- Machinery and equipment used in the printing and paper industry
- Equipment/machinery for working and processing paper and cardboard
- Machinery for raw material extraction, manufacture and finishing of paper, cardboard, fibreboard and nonwovens
- Duplicating machines
- Equipment/machinery for the production, treatment and processing of corrugated cardboard
- Dryers, drying equipment and continuous dryers
- Machinery for the manufacture, treatment and processing of electrical and electronic equipment
- Electrostatic ionisation equipment
- Machinery used in building construction
- Machinery used in the wood industry
- Equipment/machinery for farming
- Equipment/machinery for the preparation and processing of agricultural products at the grower
- Equipment used in inland fishing
- Equipment/machinery used in forestry
- Equipment/machinery for horticulture
- Grassland machinery
- Machinery for beekeeping
- Equipment for hunting
- Equipment/machinery for animal husbandry
- Equipment/machinery for viticulture and fruit growing
- Commercial ovens and baking machines
- Loading and unloading equipment
- Equipment/machinery for the production, treatment and processing of baked goods, pasta and confectionery products
- Fish processing equipment/machinery
- Meat processing equipment/machinery
- Equipment/machinery for meat after-treatment
- Equipment/machinery for vegetable and fruit processing
- Equipment/machinery for beverage production
- Equipment/machinery for grain processing and feedstuff production
- Equipment/machinery for commercial kitchens
- Equipment/machinery for coffee treatment and processing

Valid from: 01.11.2022

Date of issue: 10.02.2023

Annex to the Partial Accreditation Certificate D-ZE-14169-01-03

- Equipment/machinery for milk processing and the production of edible fats and oils
- Slaughter equipment/machinery
- Cream and ice cream making equipment/machinery
- Equipment for confectionery production
- Equipment for tobacco treatment and processing
- Commercial dishwashing machines
- Machinery for the production of bolts, screws, rivets and similar shaped parts
- Wire working and processing machinery
- Non-cutting metal working and processing machinery
- Cutting metal working and processing machinery
- Equipment/machinery for surface treatment
- Presses
- Grinding machines
- Equipment/machinery used in welding
- Heat treatment equipment for metallic materials
- Extraction machinery and plants in the stone and earth industry
- Equipment/machinery for loading, handling, stacking and conveying
- Mixing equipment and agitators
- Stone working and processing machines
- Special-purpose machinery for fine and heavy ceramics production
- Special-purpose equipment/machinery for glass production
- Special-purpose machinery for the production of building elements made of concrete, sand-lime brick masses and lightweight building material masses
- Bedspring preparation machines and cleaning machines
- Dry cleaning machines
- Leather and fur making equipment/machinery
- Shoe and leather processing machinery
- Upholstery material and upholstery manufacturing machinery
- Fabric and paper flower making machinery
- Cone, hat and cap making machinery
- Textile machinery and equipment
- Textile processing machinery
- Laundry machine
- Attachments
- Earth-moving machinery
- Equipment/machinery for conduit, pipeline and cable construction
- Road construction equipment/machinery
- Tipping and settling containers, interchangeable
- Aviation ground equipment
- Airport apron maintenance equipment
- Goods transport equipment used in airports
- Aircraft loading and unloading equipment
- Aircraft supply and disposal equipment
- Aircraft maintenance equipment
- Passenger transport equipment used in airports
- Aircraft towing machines

Valid from: 01.11.2022

Date of issue: 10.02.2023

Annex to the Partial Accreditation Certificate D-ZE-14169-01-03

- Emptying and deposit containers
- Cartoner, filling and closing machines
- Bundling and packaging machinery for printed matter
- Wrapping machines
- Forming, filling and closing machines
- Filling machinery
- Filling and closing machines
- Machines for producing and decomposing group packages and loading units
- Closing machines
- Packaging and auxiliary packaging equipment/machinery

The certification body fulfils the requirements set out in Section 21 (2) of the German Product Safety Act.
